## The Approach

### What was the scope of their involvement?

A & H Solutions helped us implement and automate most of our processes. They automated data sync between our appointment software (Boulevard), HubSpot, and Shopify store. The team also created a base process for our marketing campaign to generate leads. Moreover, they automated virtual Google Calendar event creation when a virtual appointment is booked and synced our Shopify store to the Boulevard store.

Specifically, A & H Solutions completed data sync across multiple platforms we use. Customer data from Boulevard was synced to our CRM HubSpot, and product and inventory data from Shopify was synced to Boulevard. The team also created a custom Shopify app that helped us get better lead information after customers created an order on Shopify. Additionally, they helped us set up a base campaign using Shopify that can be reused later for other campaigns.

### What is the team composition?

We worked with one teammate from A & H Solutions.

### How did you come to work with A & H Solutions?

A & H Solutions was referred to me. I chose them over other options because they had high ratings, and their company values aligned with ours.

### How much have you invested with them?

We spent less than \$10,000 with them.

### What is the status of this engagement?

We worked together from April to May 2026.

## The Outcome

What evidence can you share that demonstrates the impact of the engagement?

A & H Solutions' work resulted in better marketing campaigns, more visibility into leads, and less time spent on manual work. Specifically, we saved three hours each week to book virtual appointments manually and eight hours each week to sync information across platforms. We also made around \$1,000 after marketing campaigns and increased customer engagement during campaigns.

How did A & H Solutions perform from a project management standpoint?

A & H Solutions delivered on time. We had a high-priority Mother's Day campaign we needed to bundle our offerings for, and they worked overtime to ensure the campaign started on time. We communicated via virtual meetings, email, and a messaging app.

What did you find most impressive about them?

A & H Solutions was highly committed to ensuring timely delivery, so no money was lost in the process. It seemed they actually cared and wanted us to win.

Are there any areas they could improve?

There's nothing they could have improved.
